PROFESSIONAL SUMMARY

Detail-oriented Software Development Engineer with experience specializing in Java, Spring Boot and REST APIs. Proven ability to develop scalable, high-performance applications and solve complex technical challenges. Seeking to leverage expertise in full-stack development and problem-solving to build innovative software solutions.

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, SQL
- **Frameworks & Libraries:** Spring Boot, Hibernate, Spring Security, JavaFX, JSP, Servlets, JPA, ReactJS, STL, QT
- **Web Development:** HTML5, CSS3, JavaScript, AJAX, jQuery
- **Databases:** Oracle, MySQL, PostgreSQL, SQL Server, PL/SQL
- **Data Handling & Cleaning:** NumPy, Pandas (Python)
- **Tools, DevOps & Cloud:** GitHub, Docker, CI/CD Pipeline, REST APIs, Kafka, RabbitMQ, Redis, Microservices Architecture, Postman, SceneBuilder, AWS
- **Security:** JWT Authorization, Token-based Authentication
- **Data Structures & Algorithms:** Sorting, Searching, Arrays, Queues, Stacks, Linked Lists, Map
- **Software Design & Architecture:** SOLID Principles, LLD, HLD, Design Patterns
- **IDEs & Development Environments:** Eclipse, Visual Studio, VS Code, Jupyter Notebook, Android Studio
- **Operating Systems:** Windows, Ubuntu Linux

PROFESSIONAL EXPERIENCE

Applied Electromagnetics (AEM)

Software Development Engineer

Noida, India

Nov 2023 – Present

Role:

Software Development Engineer responsible for backend, desktop application development, feature enhancement, integration, debugging, and maintenance activities for communication, monitoring, and recording systems using Java technologies.

Responsibilities:

- Developed and enhanced desktop and web applications using Java ecosystem technologies.
- Implemented new features, requirement changes, bug fixes, and performance improvements.
- Worked on database integration, REST APIs, multithreading, and communication protocols.
- Participated in application testing, troubleshooting, and deployment support activities.
- Collaborated with cross-functional teams for requirement understanding and implementation.

Veri Proc Solutions Pvt. Ltd.

Software Developer (Intern)

Noida, India

Jan 2023 – Jun 2023

Role:

Worked on chatbot development, AI integrations, web application development, and data processing activities.

Responsibilities:

- Developed chatbot solutions for customer interactions using Dialogflow and AiSensy.
- Integrated AI-based persona generation functionality using OpenAI APIs.
- Performed large-scale data cleaning and preprocessing using Python tools.
- Contributed to frontend development activities using React.js, HTML, and CSS.

PROJECTS

VCCS (Voice Communication and Control System)

Jan 2026 - Ongoing

Worked on enhancement and development of a Java-based desktop communication application supporting VoIP communication functionalities. Implemented additional requirements and improved communication workflows including SIP integration, call management, call prioritization, and recording functionalities.

Tech Stack: Java, JavaFX, PostgreSQL, Hibernate, SIP, VoIP, REST APIs, Multithreading, Asterisk

RDPMS (Remote Diagnostics and Predictive Maintenance System)

Feb 2025 - Oct 2025

Developed a monitoring and diagnostics web application for managing data from approximately 6000 stations. Implemented onboarding workflows, filtering mechanisms, authentication modules, and maintenance-related feeds.

Tech Stack: Spring Boot, Hibernate, PostgreSQL, JSP, AJAX, Spring Security, REST APIs, Web Technologies

DVR (Digital Voice Recorder)

Sep 2025 - Jan 2026

Developed a desktop application supporting multi-channel audio recording, metadata management, sorting, merging, editing, and playback functionalities.

Tech Stack: JavaFX, SQL Server, Multithreading, File Handling, CRC Error Detection

SCU (Signal Conditioning Unit) & TASCU

Dec 2023 - Jun 2024

Developed Windows-based applications for real-time sensor monitoring and testing operations. SCU supports monitoring of sensor values through COM ports, while TASCU supports testing and analysis of multiple modules including firmware operations and GPIO configurations.

Tech Stack: Java, JavaFX, Eclipse, Multithreading, CRC Error Detection, XMODEM Protocol

Academic Project - Persona API Integration for YogB2B Extension

Mar 2023 - May 2023

Developed and integrated AI-based Persona APIs using OpenAI for generating personalized user profiles within the YogB2B Chrome extension.

Tech Stack: OpenAI API, Python, Chrome Extension Integration

EDUCATION

B.Tech – Computer Engineering J.C. Bose University of Science & Technology, YMCA, Faridabad	8.2 CGPA	Aug 2019-July 2023
Class 12 (CBSE) Tagore Senior Secondary School, Mahendragarh	87.4%	Apr 2017-Mar 2018
Class 10 (CBSE) Tagore Senior Secondary School, Mahendragarh	93.1%	Apr 2015-Mar 2016

CERTIFICATIONS & TRAINING

Java Full Stack Developer – JSpider, Gurugram	(Offline, Jun-Nov 2023)
React.js – Scaler Academy	(Online, Nov-Dec 2024)
Generative AI & Claude Development – Anthropic	(In Progress)
System Design – Udemy	(In Progress)
HackerRank Profile: [hackerrank.com/pritisunita6643] (Certifications: Software Engineer, Python (Basic), SQL (Advanced), with 5 stars in Java & SQL	

INTERESTS & EXTRACURRICULARS

- Passion for Emerging Technologies (AI, Cloud), Volunteering & Community Involvement
- Yoga (State & North Zone Gold Medalist)

PERSONAL DETAILS

Date of Birth: 10 Nov 2000	Gender: Female
Languages: Hindi, English	Nationality: Indian
Native: Mahendragarh, Haryana,123029	Marital Status: Single
